

LEDiving CANBUS CONTROL UNIT 50 W

Accessories for LED fog lights

Bypasses the vehicle's outage detection

Prevent error messages in board computers prompted by LED fog lights

Fits all cars

Suitable for most vehicle models with automatic lamp failure detection system

50 W

Enjoy full benefits of your LED upgrade by replacing your conventional fog lights

Making LED upgrades fit right in

With the LEDiving CANBUS CONTROL UNIT 50 W, OSRAM offers a practical accessory kit for use with LED fog lights. The control unit can bypass the lamp failure detection system of your vehicle when using a LED retrofit lamp. This ensures an improvement of light management and avoids a negative impact on light output and heat management of the LED solution. OSRAM provides a 3 year guarantee for this product.
