OSRAM

LEDriving HL INTENSE NXT H7

Up to +400% more brightness 1)

More light¹⁾ allows to see farther and therefore react sooner. Obstacles and hazards can be recognized sooner on race tracks.Compared to minimum ECE R112

CANbus free

Prevents error messages in board computers during failure detection

Compact LED replacement for conventional H7 high and low beam lamps

Easy installation thanks to a wide range of suitable OSRAM accessories

5-year OSRAM guarantee

For precise conditions, please refer to www.osram.com/amguarantee

OSRAM's highest performing off-road LED retrofit lamp ever!

With up to +400% more brightness¹⁾ and integrated CANbus (for avoiding error messages on the dashboard²⁾ the OSRAM LEDriving HL INTENSE NXT ensures a compact LED replacement of conventional H7 high and low beam lamps. These LED retrofit lamps are 12V compatible, come with an optimized beam pattern, color temperature of 6,000 K and thanks to the wide range of suitable OSRAM accessories the installation is easy. The top OSRAM thermal management technology with integrated active cooling – a high speed fan - provides maximized heat dissipation for more powerful performances. Premium OSRAM quality and LED technology grant up to 5 times more lifetime (compared to traditional halogen bulbs). The pair of lamps comes with a 5-year OSRAM quarantee³⁾.

These products do not have ECE approval and must not be used on public roads in any exterior application. Public roads use leads to cancellation of operating license and loss of insurance coverage. Several countries forbid sale and use of these products. Please contact your local distributor

¹⁾ compared to minimum ECE R112

²⁾ applicable to plenty of car models 3For precise guarantee conditions please refer to www.osram.com/am-guarantee.
