

Lightbar SX500-SP

Robust LED auxiliary light with powerful light output

Compact housing design

Compact mounting dimensions enables a wide range of possible applications

Lighting distance up to 370 meters

Increased far field illumination

Spot Beam

Highly concentrated light beam

Product datasheet

Durable LED power for improved road safety

Intelligent lighting technology meets a long lifespan with the LEDriving Lightbar SX500-SP driving light. With a lifespan of 5000 hours, the LED auxiliary light with certified approval provides increased and long-lasting safety on the road. With an illuminance of one lux, the beam from the LED auxiliary light can reach up to 360 meters with a beam angle of eight degrees. The 18 high-performance LEDs produce a brightness that is especially beneficial for drivers on unlit streets and in difficult visibility conditions. The intelligent reflector design of the LED bar for automobiles provides very high optical efficiency with uniform light distribution and reduced glare for oncoming traffic. Reduced glare in particular counts as another important aspect of road safety. But the light output from the 3900 lumen LED high beam isn't the only feature that gives the light its appeal: It also enhances the off-road look of the vehicle. Durable LED driving light for safe driving pleasure. Daily use demands quite a bit from the material used. The LED auxiliary lights are therefore equipped with a long-wearing polycarbonate lens. The driving light also works in extreme air temperatures ranging from -30 to 60 degrees Celsius. An integrated driver and thermal management system regulates heat generation during operation and protects the 18 high-performance LEDs from possible overheating. Over and under voltage protection automatically breaks the circuit when power exceeds the predetermined current for a specified amount of time. This practical function provides added protection from operational damage. The LEDriving Lightbar SX500-SP LED bar is suitable for cars, 4x4 and off-road vehicles and for utility and industrial vehicles. Thanks to compact mounting dimensions, even agricultural vehicles can benefit from the intense brightness of the LED auxiliary light.

Product datasheet

Technical data

Product information

Application (Category and Product specific)	Additional high beam application
---	----------------------------------

General Product Information

Global order reference	LEDDL107-SP
------------------------	-------------

Electrical Data

Nominal wattage	46.00 W
Test voltage	13.5 V

Photometric Data

Nominal luminous flux	3900 lm
Light distance at 1lx	370 m

Physical Attributes & Dimensions

Product weight	1200.00 g
----------------	-----------

Lifetime Data

Lifespan Tc	5000 hr
Guarantee	5 years

Additional product data

Connector to lamp	DT Connector
-------------------	--------------

Capabilities

Technology	LED
------------	-----

Certificates & standards

Approval marks – approval	E4 approval
Type of protection	IP69K
Standards	ECE R10, R112

Logistical data

Commodity code	85122000900
----------------	-------------

Environmental & Regulatory Information

	Video Reference Number made easy - Making sure your LEDriving Driving Lights are legal on public roads

Legal advice

In vehicles with 12/24 volts, auxiliary lights must be installed in pairs
